MISSION STATEMENT

Our mission is to help every patient achieve healthier, more attractive skin by:

- Expertly applying the best medical technology.
- Continually expanding our knowledge of Dermatology.
- Recognizing that the health of the skin is part of the overall health of the person.

We aim to accomplish these goals in a professional, friendly, comfortable and aesthetic environment.

“WHAT SPIRIT IS SO EMPTY AND BLIND, THAT IT
CANNOT RECOGNIZE THE FACT THAT THE SKIN
IS MORE BEAUTIFUL THAN THE GARMENT WITH
WHICH IT IS CLOTHED?”

-MICHELANGELO

SKIN CANCER SCREENING

The greatest underlying cause of skin cancer is the accumulated damage from excessive sun exposure. All skin cancers can be successfully cured if they are discovered and treated early. Annual skin checks and are recommended for most individuals, but more frequent checks should be done if you have a history of skin cancer.

ROSACEA

Rosacea is a condition often associated with easy flushing of the face and redness on the cheeks and chin, as well as acne. There are various medications and creams used to treat rosacea. Stubborn redness can also be minimized with laser or bright light devices, such as Photo Rejuvenation and LED Light.

ACNE

Acne not only affects teenagers, but can also be seen into adulthood. It is characterized by pimples, blackheads and occasionally by cysts. The doctor will help you with proper skin care and use of the correct products to help in the control of acne.

SPIDER VEIN REMOVAL

Unightly spider veins of the legs can be treated safely and effectively, with little downtime, using injection Sclerotherapy. Tiny injections cause the veins to disappear over the course of 1-2 months. The skin appears clearer and healthier looking after as few as one to two treatments.

MOLE REMOVAL

Moles can be present at birth or may form throughout one's life. There are many different types of mole removals. The doctor will determine which method will produce the best results.

OTHER GROWTHS

Two very commons growths that occur under the skin are cysts and lipomas. They are each benign and present as enlarging, and sometimes tender, bumps. Our Dermatologists can remove these growths and others with a minor, in-office procedure.

AT OUR OFFICE YOU ARE ALWAYS
TREATED BY A HIGHLY EXPERIENCED
STAFF OF DOCTORS AND NURSES
USING STATE-OF-THE-ART EQUIPMENT.

BOTOX/DYSPOORT

Refresh your appearance by reducing unnecessary and stubborn lines and wrinkles. Botox & Dysport cosmetic injections have become a popular method to reverse visible signs of aging, while restoring a smooth, more rested and youthful appearance.

FILLERS

We offer the most current fillers which can be used to smooth out fine lines, folds & wrinkles as well as increase volume in the face and lips. The specific filler used is selected to meet each patient's individual needs. The results are instantaneous and will give you long-lasting, natural enhancement.

Select fillers can also be used to enhance other areas of the body, such as hands, décolleté, neck and upper arms, and improve crepey skin.

KYBELLA

No one feels flattered when they see the skin below the chin look too plump or hang low. Kybella is the only FDA approved injectable treatment that helps contour, reshape and improve the appearance of excessive fullness under the chin. This does not require surgery and is considered one of the safest and most effective ways to directly address this problem.

Schedule a free consult with a cosmetic nurse to create an individualized skin care plan. Please ask us about our Monthly Specials.

COSMETIC SERVICES

COOLSCULPTING AND COOL MINI

CoolSculpting's unique technology uses controlled cooling to freeze and eliminate unwanted fat cells without surgery or downtime. Treatment areas include the abdomen and thighs to the double chin...and everything in between! The procedure is FDA-cleared, safe and effective. The results are lasting and undeniable. Effective for both men and women.

MICRONEEDLING

Our fractional microneedling device works to reduce fine lines and acne scars, as well as minimizing the appearance of pores. The result is smoother, firmer and younger looking skin. For maximum results, 3-5 treatments are advised.

PRP SKIN REJUVENATION

PRP (Platelet Rich Plasma) is the latest in anti-aging treatments. This therapy uses the patient's own plasma, with its enriching growth factors, to reverse the signs of aging.

PRP can be used alone, or combined with fillers or microneedling to amplify and enhance the procedure outcomes. The results are incredible in terms of repairing skin damage, improving fine lines and softening the appearance of scarring.

PRP FOR HAIR RESTORATION

PRP treatment can be a therapeutic option for male and female patients experiencing hair loss from various causes. PRP uses your own blood's many growth factors to stimulate hair follicle growth.

ACNE AND ANTI-AGING LED LIGHT

LED Light is an incredibly simple and effective skin treatment for everything from acne, to fine lines and dullness. The blue light kills bacteria that contribute to acne and the red light stimulates collagen production and helps speed skin's natural healing process.

COSMETIC SERVICES

BROWN SPOTS, SUN DAMAGE & SKIN PIGMENTATION TREATMENT (IPL LASER)

Photo Rejuvenation works to restore a natural beauty to your skin. It is also known as intense pulsed light (IPL) or Fotofacial. This treatment can improve the appearance of sun-damaged skin, age spots, skin texture, broken capillaries and rosacea. You can enjoy a smoother, healthier looking complexion with just a few treatments.

LASER HAIR REMOVAL

Our hair removal systems use a non-invasive, gentle laser light, specifically designed to cause permanent hair reduction on all parts of the body. Multiple treatments are needed for best results.

ACNE TREATMENT (SMOOTHBEAM LASER)

Smoothbeam laser targets the source of acne, overactive oil glands. The energy penetrates deep enough to normalize oil glands & decrease their capacity to create acne. The laser also stimulates the skin to rebuild & replenish your own natural collagen.

FACIAL VEIN AND RED SPOT TREATMENT (VARILITE LASER)

The Varilite Laser targets facial veins and angiomas (raised red spots). These vascular lesions can be improved with immediate results.

SKIN TIGHTENING AND ANTI-WRINKLE TREATMENT (REFIRME)

This revolutionary technology offers a safe and effective solution for smoothing fine lines, deeper wrinkles and firming the skin. ReFirme treatment can improve skin laxity by stimulating collagen remodeling as well as enhancing collagen growth. This laser uses a unique combination of radiofrequency and laser light.

FINE LINES, WRINKLE AND SCAR TREATMENT (TOTAL FX)

This Fractional CO2 treatment combines our Active FX and Deep FX lasers and works by smoothing and remodeling the skin's surface while at the same time stimulating collagen production deeper down. Excellent for wrinkles, acne scars and traumatic scars. Multiple treatments may be needed for best results.

HYDRAFACIAL

The HydraFacial uses super serums that quench tired looking skin. This procedure cleanses, refines, extracts and exfoliates your skin leaving it smooth, hydrated and more youthful. Create an instantly gratifying glow!

OXYGEN FACIAL

This luxurious treatment uses oxygen, plant-derived stem cells, peptides and a high concentration of enzymatic botanicals to leave the skin looking luminous, refreshed and rejuvenated.

ULTIMATE CUSTOM FACIAL

Highlights of this luxurious clinical treatment include an Intensive Resurfacing Masque with potent antioxidants and a Rejuvenating Masque containing Hyaluronic Acid, Aloe Vera Gel and various herbal extracts. They are complemented by a rich combination of serums and creams, customized to each skin type.

DETOXIFYING ACNE FACIAL

Effective for blemished skin, this treatment includes deep pore and tissue cleansing, exfoliation, extractions and a specially designed detoxifying mask. This could be combined with a customized Beta Peel, which targets the skin's excess oil production and assists in calming the inflammation.

We also offer customized facials to meet all individual needs, such as teen, men and mother-to-be facials.

FACIAL PEELS AND MICRODERMABRASION

LIGHT PEELS

To improve, maintain and rejuvenate healthy skin Glycolic fruit acid peels combined with anti-oxidant boosters can gently exfoliate dead skin cells and reveal fresher healthier looking skin. It improves the overall skin tone & texture and creates a more even pigmentation. Brighten and tighten your skin for an overall glow. Perfect before any event!

MEDIUM DEPTH PEELS

Pamper your hands with a luxurious treatment, including healing LED light, exfoliation, paraffin and a moisture recovery cream. This treatment can be added to any facial.

We have large variety of peels for all skin types, including peels specialized for pigmentation, melasma, redness, acne as well as organic options.

MICRODERMABRASION

A powerful, yet gentle exfoliating treatment which will polish the skin's surface as well as improve light scarring, large pore size and superficial wrinkles. This leaves the skin looking brighter and softer. Best results are with a series of treatments.
